Proficient in Java, JavaScript, HTML, seeking a challenging position as a Cloud Engineer.

Employment History

Infra & Cloud Management at Deloitte

January 2023 — Present

As part of the Infra & Cloud Management team at Deloitte, I am responsible for managing and optimizing the organization's infrastructure and cloud solutions. My role involves collaborating with cross-functional teams to design, implement, and maintain cloud-based systems and tools. I actively contribute to the development and execution of strategies to enhance the performance, security, and scalability of cloud environments. Additionally, I play a key role in identifying and addressing vulnerabilities and ensuring the efficient remediation of risks.

Internships

Intern Analyst at Deloitte Consulting India Private Limited , Hyderabad

January 2022 — January 2023

As an Intern Analyst at Deloitte, I had the opportunity to work on a key project for Western Alliance Bank, focusing on their extensive infrastructure hosted in Azure. My responsibilities included conducting in-depth analyses and ensuring data accuracy, which contributed significantly to the project's success. I was proud to receive a spot award in recognition of my diligence and high-quality work, highlighting my commitment to excellence in a dynamic, fast-paced environment. This experience enhanced my analytical skills and deepened my understanding of cloud solutions within the banking sector.
